RE: Burning Dump
Salisbury Township
Rt. 322

Dear Mr. Barkman:

This letter is to confirm our conference on May 18, 1972 at the office of Justice Book, Gap, Pennsylvania. Those present were yourself, Attorney O'Brian, Edward Simmons, Solid Waste Coordinator, Terry Black, Environmental Protection Specialist; Godfrey Bethea, Environmental Technician; Samuel Wagner and the writer.

It was agreed on the aforementioned date that:

1. All dumping and burning of solid waste would cease immediately until a permit is obtained from the Department of Environmental Resources
2. All solid waste exposed on the site would be covered with two (2) feet of compacted soil
3. Access to the site would be blocked to prevent unauthorized dumping.
4. Within thirty (30) days upon the submission of a compacted phase I module (soils and geology), a determination would be made by the Department to the suitability of the site in question. The phase I module must be completed by a registered professional engineer.

Failure to comply with requirements of Act 241, the Pennsylvania Solid Waste Management Act, and its rules and regulations, will make you liable for further legal action.

If there are any questions, do not hesitate to contact this office.

Very truly yours,

Dwight D. Worley
